

2 April 2026

Dear Valued Customer,

Dear Business Partner,

Following our communication of 30 March 2026, we would like to provide you with an interim update regarding the fuel surcharge mechanism applied to our transport activities.

The base surcharge of March, being 10.46%, will be maintained during April. On top of this base surcharge, we will calculate and communicate the exceptional surcharge on a weekly basis.

This approach allows us to keep the pricing structure stable for the monthly base component, while continuing to reflect short-term fuel market movements in a transparent and responsive manner through the weekly exceptional surcharge.

For clarity and ease of follow-up, the updated 2026 overview is integrated below, including the maintained monthly base surcharge and the weekly follow-up of the exceptional surcharge.
