

Dear Valued Customer,

Dear Business Partner,

16<sup>th</sup> March 2026

Due to the continued volatility in fuel prices, and as previously communicated, our fuel surcharge is now adjusted on a **weekly basis** to better reflect market developments.

Closing value	Brent USD	Evolution	Part	Fuel index
01-03-26	73,0000			
<b>Average week 10</b>	<b>86,5780</b>	18,60%	20%	3,72%
09-03-26	119,5			
10-03-26	95,04			
11-03-26	93,75			
12-03-26	101,8			
13-03-26	103,93			
14-03-26				
15-03-26				
<b>Average week 11</b>	<b>102,8040</b>	40,83%	20%	8,17%

Last week, fuel prices increased by **40.83%** compared to beginning of the month. As fuel represents approximately **20% of our operational transport costs**, the resulting impact on our pricing is calculated as follows:

$$40,83\% \times 20\% = 8,17\%$$

Therefore, an additional **8.17% fuel surcharge** will be applied to transports executed during **Week 12**.

This weekly adjustment ensures that any future decreases in fuel prices will also be reflected more quickly, allowing the surcharge to adapt faster to market conditions.

For transparency, the applicable fuel surcharge will appear as a **separate line on your invoice**. Weekly updates will continue to be provided.

Kind regards,
