

18th May 2026

Dear Valued Customer,

Dear Business Partner,

Due to the continued volatility in fuel prices, we are continuing the **weekly adjustment** of our exceptional fuel surcharge mechanism, as previously communicated. This enables us to reflect market developments more accurately and transparently.

Closing value	Brent USD	Evolution	Part	Fuel index
01-03-26	73,0000			
Average week 10	86,5780	18,60%	20%	3,72%
Average week 11	102,8040	40,83%	20%	8,17%
Average week 12	111,1240	52,22%	20%	10,44%
Average week 13	109,3460	49,79%	20%	9,96%
Average week 14	112,9525	54,73%	20%	10,95%
Average week 15	101,6950	39,31%	20%	7,86%
Average week 16	98,6780	35,18%	20%	7,04%
Average week 17	103,4640	41,73%	20%	8,35%
Average week 18	119,7700	64,07%	20%	12,81%
Average week 19	108,9220	49,21%	20%	9,84%
11-05-26	105,99			
12-05-26	108,45			
13-05-26	108,28			
14-05-26	107,13			
15-05-26	109,75			
16-05-26				
17-05-26				
Average week 20	107,9200	47,84%	20%	9,57%

Last week, fuel prices increased by **+47,84%**. As fuel represents approximately 20% of our operational transport costs, the resulting impact on our pricing is calculated as follows:

$$47,84\% \times 20\% = +9,57\%$$

Therefore, an additional **+9,57% fuel surcharge** will be applied to transports executed during Week 21.

This weekly adjustment ensures that any future decreases in fuel prices will also be reflected **more quickly**, allowing the surcharge to adapt faster to market conditions.

We will continue to provide **weekly updates** and remain available should you have any questions.

Kind regards,

DANDOY team
