

Dear Valued Customer,

Dear Business Partner,

Due to the continued volatility in fuel prices, we are continuing the **weekly adjustment** of our exceptional fuel surcharge mechanism, as previously communicated. This enables us to reflect market developments more accurately and transparently.

Closing value	Brent USD	Evolution	Part	Fuel index
01-03-26	73,0000			
Average week 10	86,5780	18,60%	20%	+3,72%
Average week 11	102,8040	40,83%	20%	+8,17%
Average week 12	111,1240	52,22%	20%	+10,44%
Average week 13	109,3460	49,79%	20%	+9,96%
Average week 14	112,9525	54,73%	20%	+10,95%
Average week 15	101,6950	39,31%	20%	+7,86%
13-04-26	98,26			
14-04-26	99,45			
15-04-26	96,9			
16-04-26	99,8			
17-04-26	98,98			
18-04-26				
19-04-26				
Average week 16	98,6780	35,18%	20%	+7,04%

Last week, fuel prices increased by **+35,18%**. As fuel represents approximately **20%** of our **operational transport costs**, the resulting impact on our pricing is calculated as follows:

$$35,18\% \times 20\% = +7,04\%$$

Therefore, an additional **+7,04% fuel surcharge** will be applied to transports executed during Week 17.

This weekly adjustment ensures that any future decreases in fuel prices will also be reflected **more quickly**, allowing the surcharge to adapt faster to market conditions.

We will continue to provide **weekly updates** and remain available should you have any questions.

Kind regards,
